

Welcome Aboard the Krazy Kreations Crafting Cruise where creativity meets the open sea! Get ready for an unforgettable journey filled with inspiration, fun, and new friendships all while sailing to beautiful destinations.

Below is the itinerary of events. We are starting our crafting event off with a welcome meet and greet in the crafting room located on Deck 13. All crafters and their guests are welcome to attend! Each crafter will receive a Krazy Kreations swag bag, a detailed crafting agenda, an assigned working space and an opportunity to meet each of your fellow craft/cruise mates!

During the cruise, we are offering 5 Krazy Kreations classes centered around our theme **"Christmas in July"**! Each class will have a different focus and/or medium and will last approximately 2 hours. After the initial instruction of the classes, there will be self paced crafting work to complete the projects. Yes, you will have plenty of time to complete projects during the cruise!

The crafting conference room is **OUR** crafting room for the entire cruise! We will be keeping the doors open to you 24/7, so you are more than welcome to craft in the room when we are not holding our class sessions!

Although we crafters love packing a lot of stuff to work on, we suggest you bring the minimum extras as we will definitely be keeping you busy with your class projects. Suggestions for packing light would be card kits, scrapbook kits or coordinating your projects with paper, stickers, stamps, etc. to eliminate extra stuff. There will not be any crafting tools (die cutting, electronic machines, etc.) in the room. Shopping on board for supplies is also not available - there will be limited Krazy Kreations tools and products outside of the class materials.

What you will need to bring: **BASIC TOOL KIT** (scissors, paper trimmer, adhesive, tweezers, silicone mat, scoring board, etc.). You will also need alcohol ink markers - remember theme is **Christmas in July**. We will have a variety of OLO alcohol ink markers for use during the class sessions. Please be aware, that this ship does not allow surge or extension cords on board without prior approval - so we recommend battery operated lighting. Keep in mind that you will need extra room in your luggage to bring home all of your projects!

Let the crafting magic begin!

Kara and Michelle
Krazy Kreations Team

Date	Anthem of the Seas Port	Ship Arrive	Ship Depart	Krazy Kreations	Beginning Time	Ending Time
